ABOUT ME

I don't get up from the desk until I finish my work. I strive to develop myself to the fullest in programming and database management. Currently, I work on very ambitious personal projects that involve both using APIs in the frontend and connecting to a backend that handles CURL operations, email sending, and user management; all of this connected to its own database, created and managed with MySQL.

I am very consistent and always want to improve my skills, and I am even more motivated when I see that my work is useful to someone.

I can use frameworks such as Angular, Telerik with .NET, Laravel, and Bootstrap, and languages like PHP, Java, JavaScript, HTML & CSS, C#, SQL (with MySQL and MariaDB). I also have basic knowledge of SAP Business One.

Additionally, I have experience with Git and version control applications like SourceTree.

In my free time, I play the cornet in a music band.

EDUCATION

Web Application Development

IES Portada Alta (Málaga) - 2025

Spanish Baccalaureate in Science and Technology

IES Martín Rivero (Ronda) - 2022

WORK EXPERIENCE

ESTUDIANTE EN PRÁCTICAS

SEIDOR MÁLAGA | Mar - Jun, 2025

Design and implementation of an application for quality management of goods orders, integrated with SAP Business One using DI-API and Service Layer to connect with the company's database.

The solution was developed on the ASP.NET framework with Telerik, leveraging its MVC structure (controllers and views).

Technologies: SAP Business One (DI-API, Service Layer), Telerik, C#, SQL Server, JavaScript, HTML, CSS.

APTITUDES

- **English – B2 (2024)**
- Database management with MySQL and MariaDB
- Database connection and form handling using PHP, .NET, and Laravel
- Automated email delivery using Laravel and Zoho Mailer
- Data retrieval from backend endpoints and APIs, and manipulation using Angular and JavaScript
- Version control and branching with Git (SourceTree & GitHub Desktop)
- Knowledge of SAP BI and programming with DI-API and Service Layer
- Currently learning Java SpringBoot and developing a personal project based on it
- Winner, as a student of IES Martín Rivero (Ronda), of the Sevilla Science Fair (2018)
- Developer of the websites "COFRADIARIO" and "UNDERDOG WRLD"
- Soft Skills: teamwork, adaptability, problem-solving, and effective communication
- ¿Quieres que lo formatee para LinkedIn, Europass o en versión PDF lista para enviar?
